

New: Rabbit tissue transglutaminase (TG2)

Transglutaminase Newsletter November-2014

In preclinical drug development mandatory testing of compounds in animal models is costly. *In vitro* pharmacodynamic studies using animal transglutaminases help you to save time and money in the selection and evaluation of relevant pharmacodynamic animal models.

Find below a selection of our tissue transglutaminase (TG2) panel:

Art. No.	Name	Unit	Price
T139	Rabbit tissue transglutaminase (oTG2, recombinantly produced in <i>E. coli</i>)	250 µg 1 mg	370 € 1100 €
T072	Dog tissue transglutaminase (cITG2, recombinantly produced in <i>E. coli</i>)	250 µg 1 mg	370 € 1100 €
T039	Guinea pig liver tissue transglutaminase (gpTG2, recombinantly produced in <i>E. coli</i>)	10 U	375 €
T038	Rat tissue transglutaminase (rTG2, recombinantly produced in <i>E. coli</i>)	250 µg 1 mg	370 € 1100 €
T040	Mouse tissue transglutaminase (mTG2, recombinantly produced in <i>E. coli</i>)	250 µg 1 mg	370 € 1100 €

Please contact us for tissue transglutaminases from **other animal species** or non-recombinant TG2-preparations

Find our complete tissue transglutaminase panel including [human TG2](#) on our website.

Already got our [catalogue](#)?

[Download](#) your electronic copy or send us an [e-mail](#) to receive your personal hard copy.

Get more information about transglutaminases and Zedira on Facebook  and Twitter  !

For detailed information concerning our products please refer to our web site: www.zedira.com.

Should you have any questions or queries about our products, please do not hesitate to contact us: contact@zedira.com.

We are constantly enlarging our product portfolio in order to fulfill researchers' requirements in the field of transglutaminase.

The newsletter is sent to known interested parties only. If you do not want to receive the Transglutaminase Newsletter anymore, please click here to [unsubscribe](#) your mail address.

In case that you know potential new interested colleagues, please forward this e-mail.
