

Product number **Z009**
Revision number **RN1.1**

Product Name	ZediXclusive Microbial Transglutaminase Assay Kit	
Synonym	Hydroxamate Assay	
Quantity	1 Kit	
Description	Chromogenic Assay for measurement of microbial transglutaminase activity. The Microbial Transglutaminase Assay Kit uses Z-Gln-Gly as the amine acceptor substrate and hydroxylamine as amine donor. In the presence of MTG hydroxylamine is incorporated into Z-Gln-Gly to form Z-glutamyl-hydroxamate-glycine which develops a colored complex with iron (III) detectable at 525 nm.	
Reagents	3x Activity Reagent (A1)	White lyophilized solid
	3x Activity Reagent (A2)	White lyophilized solid
	3x Stop Reagent (S)	Yellow liquid
	3x MTG Positive Control (P1)	White lyophilized solid
Storage	Store A1, A2 and S at 4-8 °C. P1 must be stored at ≤ -20°C.	
Stability	When stored as indicated, the unopened reagents are at least stable until the retest date printed on the box.	
Shipping	Delivery at ambient temperature is possible.
